Doctor's referrals are not necessary but registrations and group screening may be needed for some groups.

Mary McGill Mental Health Program

Group Counselling - Adult (16yrs+)

Summer 2022

CBT for Depression

This Cognitive Behaviour Therapy Group for depression is a supportive and educational 12-session group designed to teach participants skills to cope with feelings and symptoms of depression and anxiety.

Ongoing Peer Support

This weekly peer led, clinician facilitated group is for anyone experiencing stress, mental health or emotional distress issues. Based on group needs, the session will focus on support, psycho-education, and tools for building coping strategies

DBT Skills Group

Using Dialectical Behavioural Therapy techniques, this skills group helps people introduce effective and practical skills into their lives, which they can use when they are distressed. These skills are meant to replace other unhealthy and negative behaviours.

Mindfulness Awareness Stabilization Training

This group teaches introductory mindfulness and emotion regulation skills to people struggling with mental health challenges with an emphasis on psycho-education and shorter meditation practices.
