Mary McGill Mental Health Program

Group Counselling - Adult (16yrs+)

Fall 2026

CBT for Depression

This Cognitive Behaviour Therapy Group for depression is a supportive and educational 12-session group designed to teach participants skills to cope with feelings and symptoms of depression and anxiety.

Ongoing Peer Support

This weekly peer led, clinician facilitated group is for anyone experiencing stress, mental health or emotional distress issues. Based on group needs, the session will focus on support, psycho-education, and tools for building coping strategies
